Dear SHARYL Y CARTER:

Enclosed is important plan information.

DELPHI

October 29, 2010

Reference: Changes to the Delphi Corporation Personal Savings Plan and the
Delphi Salaried Retirement Savings Program

Dear Plan Participant:

As a result of a change in the company contracted to manage the investment of assets held in the Delphi Corporation Personal Savings Plan and the Delphi Salaried Retirement Savings Program (the "Plans"), changes to the share class of five investment options within the Plans are necessary. These share class changes will result in slightly revised expense levels for four of these five investment options, while one option's expense level remains unchanged. These changes represent the first step in a series of changes planned by Delphi which will take place over the next several months and will culminate in overall enhancements to the Plans.

Please read carefully. It is important for you to determine what action, if any, you would like to make for the benefit of achieving your financial goals and investment objectives. There are resources available to help you online at **yourdelphibenefits.com** and by phone at the Fidelity Benefit Center **1-877-389-2DPH (374)**.

Share Class Changes

Effective as of the market close (generally 4 p.m. Eastern time) **on November 29, 2010**, the share class of five investment options offered through the Plans will change. As a result of this change, the fund codes, ticker symbols, and expense ratios will change. The new share class will offer you the same investment strategy and risk but the overall expenses will change. See chart below for details. The transfer of balances will appear as an exchange on your account history and quarterly statement.

Old Investment Options		New Investment Options
SSgA Large Cap Index Expense Information*: .00%	⇒	SSgA S&P 500 Index Non-Lending Series Fund – Class C Expense Information*: .06%
Mid/Small Cap Index Fund Expense Information*: .04%	⇒	SSgA Russell Small/Mid Cap Index Non-Lending Series Fund – Class C Expense Information*: .06%
International Index Fund Expense Information*: .09%	⇒	SSgA International Index Non-Lending Series Fund – Class C Expense Information*: .09%
Emerging Markets Index Fund Expense Information*: .28%	⇒	SSgA Emerging Market Index Non-Lending Series Fund - Class C Expense Information*: .20%
REIT Index Fund Expense Information*: .14%	⇒	SSgA REIT Index Non-Lending Series Fund – Class C Expense Information*: .10%

As of date: September 23, 2010

The reallocation of assets depends on the timely liquidation of those assets. A delay in liquidation may result in a change to the above-noted dates.

Action to Consider

If you do not want your existing balances and future contributions to transfer to the investment options as shown in the table above, you must contact Fidelity Investments before 4 p.m. Eastern time on November 29, 2010, and request an exchange. You can do so by logging on to **yourdelphibenefits.com** and accessing your account, or by calling Fidelity at **1-877-389-2DPH (374)** and speaking with a Customer Service Associate, between 8:30 a.m. and midnight Eastern Time, on any business day.

The S&P 500® Index is a registered service mark of The McGraw-Hill Companies, Inc., and has been licensed for use by Fidelity Distributors Corporation and its affiliates. It is an unmanaged index of the common stock prices of 500 widely held U.S. stocks that includes the reinvestment of dividends.

SSgA International Index Non-Lending Series Fund – Class C

FPRS Code: OOSN

What it is: An international/global investment option (not a mutual fund).

Goal: The SSgA International Index Fund (the "Fund") seeks an investment return that approximates as closely as practicable, before expenses, the performance of the MSCI EAFE® Index (the "Index") over the long term.

What it invests in: The Fund is managed using a "passive" or "indexing" investment approach, by which SSgA attempts to match, before expenses, the performance of the Index. SSgA will typically attempt to invest in the securities comprising the Index in the same proportions as they are represented in the Index. In some cases, it may not be possible or practicable to purchase all of the securities comprising the Index, or to hold them in the same weightings as they represent in the Index. In those circumstances, SSgA may employ a sampling or optimization technique to construct the portfolio in question. The Fund's returns may vary from the returns of the Index.

Who may want to invest:

- Someone who wants to complement the performance of domestic investments with overseas investments, which can behave differently
- Someone who is willing to accept the higher degree of risk associated with investing overseas in exchange for potentially higher returns

Managed by State Street Global Advisors, which provided the description for this portfolio.

The Morgan Stanley Capital International Europe, Australasia and Far East Index (MSCI EAFE) is an unmanaged market capitalization-weighted index designed to represent the performance of developed stock markets outside the United States and Canada.

SSgA Emerging Market Index Non-Lending Series Fund - Class C

FPRS Code: OOSP

What it is: An emerging markets investment option (not a mutual fund).

Goal: Seeks an investment return that approximates as closely as practicable, before expenses, the performance of the MSCI Emerging Markets Index over the long term.

What it invests in: The investment adviser will typically attempt to invest in the securities comprising the MSCI Emerging Markets Index in the same proportions as they are represented in that index. In some cases, it may not be possible or practicable to purchase all of the securities in the index, or to hold them in the same weightings as they represent in the index. In those circumstances, the adviser may employ a sampling or optimization technique to construct the portfolio in question. The portfolio's returns may vary from the returns of the index. Foreign securities are subject to interest-rate, currency-exchange-rate, economic, and political risks, all of which are magnified in emerging markets. Unit price and return will vary.

Who may want to invest:

- Someone who is willing to accept the higher degree of risk associated with investing in emerging markets in exchange for potentially higher returns
- Someone who wants to complement the performance of domestic investments with overseas investments, which can behave differently

Managed by State Street Global Advisors (SSgA), which provided the description for this portfolio.

The Morgan Stanley Capital International (MSCI) Emerging Markets Index is an unmanaged market capitalization weighted index of equity securities of companies in various countries.

Re: Distribution to the Plans of Proceeds from Settlements Achieved in a Securities Class
Action

This is to advise you that the Plans filed a claim to participate in the distribution of the proceeds of settlements achieved by plaintiffs in a securities class action - - *In re Delphi Corp. Sec. The Plans have received a distribution from the settlements, and the Plans' actuary has determined each participant's proportionate share of that distribution.

As a Terminated Vested participant, the proceeds allocated to you by the Plans were invested according to your most recent investment elections on file at Fidelity.
